

UniSA and SA Health PhD Scholarships.

Interested in developing innovative services for chronic illness in diverse communities?

UniSA and SA Health have two PhD Scholarships to work with a team developing innovative ways of caring for chronic illnesses. One with Indigenous communities and one in Culturally and Linguistically Diverse communities.

To apply you will have a First Class or 2a Honours degree or a Masters by Research in a relevant area of social sciences. You will be an Australian/ NZ citizen or permanent resident of Australia. Previous research with diverse communities, innovative health services, or social science methods will be well regarded.

Two Scholarships are available for 3 years full time at around \$26,000 p.a.
