child, youth and family services

Trauma and Differential Diagnosis

This practice forum will support and enhance the skills and knowledge required by health and community services professionals working with children, young people, and families. It will consider and explore the, at times, overlapping presentations of Autism Spectrum Disorder (ASD), Attention Deficit Hyperactivity Disorder (ADHD), Foetal Alcohol Spectrum Disorder (FASD), and Reactive Attachment Disorder (RAD) in the context of a trauma history.

This forum aims to enhance practice and client outcomes by generating lively and informative conversations through expert presentations and an interactive case-study and panel discussion.

When: Friday 12 May, 2017

Time: 9:00am – 12:30pm

Where: Department of Health and Human Services, 165-169 Thomas Street, Dandenong, VIC 3175

Cost: \$100

Register: trybooking.com/256700
