## OBJECTIVES

The aim of this competition is to engage students with their local heritage – built and/or natural – and to encourage them to actively recognise its value for future Western Australians.

Students use their writing *and* photography skills to demonstrate how they value their local heritage.

Students set their story in their local environment and show, through narrative writing and original photography, that the place has heritage value TO THEM. The place does not have to be heritage listed. Creative interpretation of research through literary and photographic skills is encouraged.

For the purposes of the competition, heritage is defined as:
