

INTERNSHIPS AT THE STATE LIBRARY OF NSW

The State Library of NSW recognises the importance of internships in enabling students to gain valuable workplace experience and develop industry-specific skills in their chosen area of study. We value the contribution that students make to our work and are committed to providing opportunities for students to develop personally and professionally in a supportive environment.

Internships at the Library are at times project-based and this format allows students to gain insights and practical experience into the core elements of Library work, such as collection cataloguing, information services or heritage and research. Our opportunities vary in length depending on the needs of the project and those of the student's educational institution and assessment requirements.

Participation in all internships require that the student's insurance be covered by their educational institution and be a requirement of their chosen course of study. Our internships are unpaid and are available to students undertaking relevant courses at Australian educational institutions. Potential interns should note that any required accommodation and/or travel should be funded by the student or the educational institution.

For all enquiries about internships, please contact Andrea Calleia, 02 9273 1628, andrea.calleia@sl.nsw.gov.au or David Vincent, 02 9273 1552, david.vincent@sl.nsw.gov.au
