2023-24 Curtin HIVE Summer Internships

10 weeks, \$7,000 tax-free scholarship

Research internships in visualisation related topics

Applications close: Sunday 22 October 2023.

Our HIVE Summer Interns take on challenging research projects utilising high-tech resources of the Curtin HIVE, supervised by leading researchers and are supported by HIVE Visualisation Specialists. During the internship, sessions will be provided to allow you to develop research, visualisation, project, report writing and communication skills.

We have a list of fantastic proposed internship projects this year. We welcome applications from **Curtin undergraduate and postgraduate students from all academic areas**.

TO APPLY

1. Review the internship overview document and read the proposed projects on offer available at [HIVE.curtin.edu.au/internships](https://hive.curtin.edu.au/internships)
2. Complete the online application form, available as a link at [HIVE.curtin.edu.au/internships](https://hive.curtin.edu.au/internships), by **22 October 2023**
